

CRADLE

28V / 450 A

Part Number: 25AT-221711-234

Ductless without noise suppression filter

Part Number: 25AT-221711-235

Ductless with noise suppression filter

HEAVY DUTY BRUSHLESS ALTERNATOR

The compact 25AT design Heavy Duty brushless alternator, is an innovative power generating system, best suited for applications demanding high output at low rpm. Thanks to the progressive stator technology and the high precision assembly process, this alternator is capable of reaching efficiency levels of over 87,4%. The impressive output at engine idle makes this alternator a natural choice for a wide range of transit vehicles.

- High output at @2000 RPM
- High Efficiency over 87,4 %
- Low Inertia Advantage
- Low RPM Turn On
- Superior Air Cooled Alternator

- Robust construction
- Easy Installation
- Long bearing life
- Industry Std Mounting & Electrical Interface
- Ground isolated

Applications

• Transit Bus • Construction • Fire & Rescue • Agriculture • Military • Mining
• Marine & Rail (E.I.P. Compliant)

Performance Curve

STABILIZED @ 23 °C (73 °F) SAE J56

Specifications

System Voltage	24V	Mounting	Cradle Style
Rated Output:	500A	Speed limits:	6500 RPM
Output @ 2000 rpm:	315A	Weight:	46 kg
Temperature limits:	-Low: -40°C / -High: 125°C	Regulator:	Remote
Turn on speed:(RPM)	1100	Rotation:	CW
